PROJECT

Covid - 19 Tracker App
This app shows the user how many covid cases are currently in the Districts and states of India. This is the simple app in which the data is fetched from the API. The data is displayed as a pie chart for better understanding of the data.

Gym website using React
This website is a front end webpage created by using Reactjs. It shows about the details of the gym and membership details.

CERTIFICATE

UPAGRAHA'22 HACKATHON   NOV - 2022
In this Hackathon event, I had participated with my team members. We built a Child Tracker Application and this app locate the child's location to the parent. This app can be installed in the mobile or smart watches so that the parent can track their routine route.

HACKML'22   JUN - 2022
In this event, I had participated as team and I had learned about Machine Learning.

COMPOSE CAMP   SEP - 2022
In this compose camp, I had learned about Kotlin for application development and we made a PPT presentation on the topic Facial expressions detector.
